

# Fabric Density Options

Phone: 503-439-0306 | Email: info@rootpouch.com | Web: www.rootpouch.com

Root Pouch is the only manufacturer that produces its own fabrics. Root Pouch fabrics are made from 100% recycled plastic water bottles (PET) and natural fibers. For in-ground growing, natural fibers will draw water from the surrounding soil. Natural fibers also offer superior thermal and moisture control. BPA Free - non-toxic with no trace of metals.

## Boxer Line: Brown, Navy & Forest

100% SYNTHETIC BLEND OF PET (RECYCLED PLASTIC WATER BOTTLES)  
WASHABLE / RE-USABLE

- Heavyweight fabric designed for all-around use.
- Used for above ground growing and lasts multiple seasons.

*Available in sizes #1 to #600, with or without handles.*

## Black Line

RECYCLED PET & NATURAL FIBER BLENDED FABRIC  
4-5 SEASONS WHEN USED IN-GROUND  
260 GRAMS PER SQUARE METER

- Natural fibers allow for in-ground use.
- Natural fibers draw water & nutrients from surrounding soil.
- Durable enough for above ground growing.

*Available in sizes #1 to #65, with or without handles.*

## Grey Line

RECYCLED PET & NATURAL FIBER BLENDED FABRIC  
3-4 SEASONS WHEN USED IN-GROUND  
250 GRAMS PER SQUARE METER

- Great for in-ground growing.
- Natural fibers draw water & nutrients from surrounding soil.
- Durable enough for above ground growing.
- Great for indoor growing situations.

*Available in sizes #1 to #25, with or without handles.*

## Charcoal Line

RECYCLED PET & NATURAL FIBER BLENDED FABRIC  
18-24 MONTHS - ONE & DONE  
150 GRAMS PER SQUARE METER

- Specifically designed for indoor growing.
- Thin-walled, natural fiber blend offers superior thermal and moisture control.

*Available in sizes #1 to #7, no handles, for single use.*

## Thin Black Line

RECYCLED PET & NATURAL FIBER BLENDED FABRIC  
12-18 MONTHS - THIN-WALLED  
90 GRAMS PER SQUARE METER

- Designed for young plants and shift ups.
- Perfect for seedlings.
- Great for propagation.

*Available in sizes 1 pint to #3, no handles, for single-use.*

**Don't be misled!**

Just because the imitator's fabric pots look like ours, does not mean they perform like ours!
